Thank You For Supporting My Work!

Hello my friend, Randall here. All money donated goes toward supporting my research and my investigative work that documents the catastrophic history of the world and the evidence for advanced knowledge in earlier cultures. Your financial support allows me, and my entire team, to produce a steady stream of audio/video content that clearly demonstrates the profound implications of this knowledge and the direct effect it has on human civilization.

Most importantly, as a "coproducer," you are helping Randall Carlson, LLC **educate humanity as a whole on *how to successfully cope with the inevitable changes*** that are sure to visit earth and the dynamic, geocosmic system in which we live.

Thank you for your support.
